Yeongtak Oh (오영탁)

Seoul National University oyt9306@gmail.com oyt9306.github.io Github
Ph.D. Candidate in Electrical and Computer Engineering

Research Interests

Physical AI, Generative Models, Post-Training, Multi-Modal Learning, Personalization

Education

Seoul National University — Sep 2022 – Present, Seoul, Korea
Ph.D. Candidate in Electrical and Computer Engineering (Advisor: Prof. Sungroh Yoon)

Seoul National University — Sep 2018 – Aug 2020, Seoul, Korea
M.S. in Mechanical Engineering (Advisor: Prof. Byeng D. Youn)

Seoul National University — Aug 2018, Seoul, Korea
B.S. in Mechanical and Aerospace Engineering

Publications

Preprints

Honors and Awards

- **Winner, Qualcomm Innovation Fellowship Korea (QIFK)** [Link] **Dec 2025**

Invited Talks

Ewha Womans University | Efficient Vision-Centric Post-Training Methods Nov 2025

SNU IPAI | RePIC: Reinforced Post-Training for Personalizing MLLMs Oct 2025

NVIDIA | ControlDreamer and Beyond: Post-Training Multi-View Generative Models Feb 2025

Professional Experience & Service

Research Intern Jan 2022 – Aug 2022
SNU Data Science & AI Lab (Advisor: Prof. Sungroh Yoon) Seoul, Korea

Military Science & Technology Researcher Aug 2020 – Jan 2022
Korea Military Academy, AI R&D Center Seoul, Korea

Reviewer ICML 2026
