Ph.D. Candidate in Electrical and Computer Engineering

RESEARCH INTERESTS

Physical AI, Generative Models, Post-Training, Multi-Modal Learning, Personalization

EDUCATION

Seoul National University — Sep 2022 – Present, Seoul, Korea
Ph.D. Candidate, Electrical and Computer Engineering *Advisor: Prof. Sungroh Yoon*

Seoul National University — Sep 2018 – Aug 2020, Seoul, Korea
M.S. in Mechanical Engineering *Advisor: Prof. Byeng D. Youn*

Seoul National University — Mar 2014 – Aug 2018, Seoul, Korea
B.S. in Mechanical and Aerospace Engineering

HONORS AND AWARDS

Winner, Qualcomm Innovation Fellowship Korea (QIFK) [Link] Dec 2025

INVITED TALKS

SNU AI Summit | RePIC: Reinforced Post-Training for Personalizing Multi-Modal Language Models Apr 2026

Ewha Womans University | Efficient Vision-Centric Post-Training Methods for Multi-Modal Generative Models Nov 2025

SNU IPAI | RePIC: Reinforced Post-Training for Personalizing Multi-Modal Language Models Oct 2025

NVIDIA | ControlDreamer and Beyond: Post-Training Multi-View Generative Models for 3D Generation Feb 2025

PROFESSIONAL EXPERIENCE & SERVICE

Research Intern Jan 2022 – Aug 2022
SNU Data Science & AI Lab *Advisor: Prof. Sungroh Yoon* Seoul, Korea

Military Science & Technology Researcher Aug 2020 – Jan 2022
Korea Military Academy, AI R&D Center Seoul, Korea

Reviewer — ICML 2026, NeurIPS 2026
