Ph.D. Candidate in Electrical and Computer Engineering

RESEARCH INTERESTS

Physical & Agentic AI, Personalization, Post-Training, Multi-Modal Learning

EDUCATION

Seoul National University — Sep 2022 – Present
Ph.D. Candidate, Electrical and Computer Engineering *Advisor: Prof. Sungroh Yoon* — Seoul, Korea

Seoul National University — Sep 2018 – Aug 2020
M.S. in Mechanical Engineering *Advisor: Prof. Byeng D. Youn* — Seoul, Korea

Seoul National University — Mar 2014 – Aug 2018
B.S. in Mechanical and Aerospace Engineering — Seoul, Korea

HONORS AND AWARDS

Yulchon AI Star — Aug 2026

Gold reviewer, ICML 2026 (ranked in top 25%) — May 2026

Winner, Qualcomm Innovation Fellowship Korea (QIFK) [Link] — Dec 2025

INVITED TALKS

SNU AI Summit | RePIC: Reinforced Post-Training for Personalizing Multi-Modal Language Models — Apr 2026

Ewha Womans University | Efficient Vision-Centric Post-Training Methods for Multi-Modal Generative Models — Nov 2025

SNU IPAI | RePIC: Reinforced Post-Training for Personalizing Multi-Modal Language Models — Oct 2025

NVIDIA | ControlDreamer and Beyond: Post-Training Multi-View Generative Models for 3D Generation — Feb 2025

PROFESSIONAL EXPERIENCE & SERVICE

Research Intern — Jan 2022 – Aug 2022
SNU Data Science & AI Lab Advisor: Prof. Sungroh Yoon — Seoul, Korea

Military Science & Technology Researcher — Aug 2020 – Jan 2022
Korea Military Academy, AI R&D Center — Seoul, Korea

Reviewer — ICML 2026, NeurIPS 2026, AAAI 2027, ICLR 2027, International Journal of Computer Vision (IJCV)
